MOLECULAR AND CELLULAR ENDOCRINOLOGY

Volume 63, Nos. 1/2 May 1989

CONTENTS

Research Papers

Insulin-like growth factors and neonatal cardiomyocyte development: ventricular gene expression and membrane receptor variations in normotensive and hypertensive rats
G.L. Engelmann, K.D. Boehm, J.F. Haskell, P.A. Khairallah and J. Ilan (U.S.A.) 1

Generation of polyclonal antibodies against purified rat whey acidic proteins and the synthesis of a tracer fusion protein suitable for use in radioimmunoassays
Z. Krozowski (Australia) 15

Isolation and characterisation of calcineurin from adrenal cell cytoskeleton: identification of substrates for Ca^{2+}-calmodulin-dependent phosphatase activity
V. Papadopoulos, A.S. Brown and P.F. Hall (Australia) 23

The human androgen receptor is a 110 kDa protein
J.H. Van Laar, J. Bolt-de Vries, M.M. Voorhorst-Ogink and A.O. Brinkmann (The Netherlands) 39

Antipeptide antibodies reveal structural and functional characteristics of rat placental lactogen-II
S. Deb, K. Hashizume, K. Boone, J.N. Southard, F. Talamantes, A. Rawitch and M.J. Soares (U.S.A.) 45

Influence of insulin on phosphate uptake by brush border membranes from human placenta
M.G. Brunette, M. Leclerc, C. Ramachandran, J. Lafond and D. Lajeunesse (Canada) 57

In vitro effects of estrogen on *tgb* and c-*myc* gene expression in normal and neoplastic human thyroids
L. Del Senno, E. Degli Uberti, S. Hanau, R. Piva, R. Rossi and G. Trasforini (Italy) 67

Androgen modulation of prostate cancer cell androgen receptor content is cell line specific
A.L. Lin and S.A. Shain (U.S.A.) 75

The androgen-binding protein gene is expressed in CD1 mouse testis
Y.-M. Wang, P.M. Sullivan, P. Petrusz, W. Yarbrough and D.R. Joseph (U.S.A.) 85

Characterization and estrogen regulation of growth factor activity from uterus
C.A. Beck and C.W. Garner (U.S.A.) 93

Ecdysteroid receptors in *Drosophila melanogaster* adult females
A.M. Handler and P. Maroy (U.S.A., Hungary) 103

Characterization of angiotensin II binding sites in the human term placenta
M. Tencé and A. Petit (France, Canada) 111

Stimulation and inhibition of prolactin release from rat pituitary lactotrophs by the cholinomimetic carbachol in vitro. Influence of hormonal environment and intercellular contacts
P. Carmeliet, P. Maertens and C. Denef (Belgium) 121

Studies on follicular atresia: role of gonadotropins and gonadal steroids in regulating cathepsin-D activity of preovulatory follicles in the rat
N. Dhanasekaran and N.R. Moudgal (India) 133

(continued on p. 274)

Cited in Biological Abstracts; Current Contents / Life Sciences; Excerpta Medica (EMBASE); Index Medicus; Informedicus; Pascal M

PRINTED IN THE NETHERLANDS

Contents (continued)

G-protein α-subunits in cytosolic and membranous fractions of human neutrophils
U. Rudolph, D. Koesling, K.-D. Hinsch, R. Seifert, M. Bigalke, G. Schultz and W. Rosenthal (Germany) 143
Effect of lipoxygenase products on choriogonadotropin secretion by cultured human choriocarcinoma JEG-3 cells pre- and post-stimulation with epidermal growth factor and a phorbol ester
J. Ilekis and R. Benveniste (U.S.A.) 155
Role of protein kinase C in the prolactin-induced responses in mouse mammary gland explants
S.B. Waters and J.A. Rillema (U.S.A.) 159
Human growth hormone stimulates somatomedin C/insulin-like growth factor I production by the human lymphoid cell line, IM-9
J.M. Palmer and M. Wallis (U.K.) 167
Phosphorylation of proteins in rat ovarian plasma membranes by [γ-^{32}P]GTP: evidence for the formation of a high energy phosphoprotein
Y. Amir-Zaltsman and Y. Salomon (Israel) 175
Increased epidermal growth factor receptor level in breast cancer cells treated by 1,25-dihydroxyvitamin D3
N. Falette, L. Frappart, M.F. Lefebvre and S. Saez (France) 189
Regulation of gene expression by insulin in adipose cells: opposite effects on adipsin and glycerophosphate dehydrogenase genes
C. Dani, B. Bertrand, S. Bardon, A. Doglio, E. Amri and P. Grimaldi (France) 199
Molecular cloning of cDNAs for precursors of porcine pituitary glycoprotein hormone common α-subunit and of thyroid stimulating hormone β-subunit
T. Hirai, H. Takikawa and Y. Kato (Japan) 209
Mechanism(s) by which activation of protein kinase C is coupled to prostacyclin synthesis in granulosa cells
J.D. Veldhuis and L.M. Demers (U.S.A.) 219
Macromolecular transport in rabbit blastocysts: evidence for a specific uteroglobin transport system
D.H. Robinson, K.L. Kirk and D.J. Benos (U.S.A.) 227
Developmental changes in phosphodiesterase activity and hormonal response in the prothoracic glands of *Manduca sexta*
W.A. Smith and T.J. Pasquarello (U.S.A.) 239
Adrenocorticotropic hormone inhibits angiotensin II-stimulated inositol phosphate accumulation in rat adrenal glomerulosa cells
E.A. Woodcock (Australia) 247
Effects of thiolation of amino groups of ovine lutropin on immunoreactivity, receptor binding and bioactivity
V. Singh and M.R. Sairam (Canada) 255
Rapid Communications
Reversible desensitization of calcitonin secretion by repetitive stimulation with calcium
H. Scherübl, F. Raue, G. Zopf, J. Hoffmann and R. Ziegler (F.R.G.) 263
Follicle-stimulating hormone regulates androgen receptor mRNA in Sertoli cells
L.J. Blok, P. Mackenbach, J. Trapman, A.P.N. Themmen, A.O. Brinkmann and J.A. Grootegoed (The Netherlands) 267
Calendar of Meetings 273
Notes to Authors
